```tsx
import Heading from "../components/heading"
import Welcome from "../components/body-welcome"
import ClickButtons from "../components/buttons"
import Footer from "../components/footer"

function Home() {
  return (
    <>
    <header>
      <Heading/></header>
    <section>
      <Welcome/>
      </section>
    <section>
      <ClickButtons/>
    </section>
    <section>
      <Footer/>
    </section>
    </>
  )
}

export default Home
```
